LangChain PDF QnA Test Document

This document is for testing the LangChain PDF QnA project.

Page 1: Introduction to AI

AI stands for Artificial Intelligence. It is a field of computer science that enables machines to perform tasks that normally require human intelligence.

Page 2: LangChain

LangChain is a framework for building applications with Large Language Models (LLMs). It allows connecting LLMs with tools, memory, and agents for advanced functionality.

Page 3: Agentic AI

Agentic AI refers to AI systems that can make decisions and take actions autonomously. Agents can use tools and perform multi-step reasoning to solve complex problems.

Page 4: PDF QnA

Using LangChain, you can build a system that reads PDFs, splits the text into chunks, creates embeddings, and retrieves relevant information to answer user questions.
